## To get your packages:

1. Visit the Asset Store with the same account that you purchased the Mega Stamp Bundle.
2. Visit each of the package pages and add the package to your cart.  
**NOTE: They should each display a FREE / \$0.00 price.**
3. Make the purchase to complete the transaction.
4. These packages will now be available for download.

## How to use the Stamps included in the packages:

Please refer to the manual document found in the individual stamp packs. After installing one of the stamp packs, you can find the manual in the folder

Assets\Procedural Worlds\Gaia\Stamps.

## About Procedural Worlds

At [Procedural Worlds](#) our mission is to empower people to create, automate and navigate worlds. Our products are easy to use, nicely integrated and well supported.

We service indies, professionals and enterprise with our tools, and deliver custom projects for studios, enterprise and government. Our special power is that we have both a deep procedural technology stack, and an amazing team of experts, and we leverage this unique combination to create applications, games, sims, mapping and mmo / metaverse experiences at a fraction of the typical time and cost. Check out our [gallery](#), and then [contact us](#).

We are a Unity Partner, Intel Partner, and have been a top asset store publisher since we first launched Gaia in 2015. Our reviews over this time speak for themselves.

### Our Products:

#### Bundles

[World Building Bundle - 2021 Edition](#) - Get another 20% off our most popular tools with this awesome bundle. It includes Gaia Pro 2021, Gena Pro, Ambient Sounds, Pegasus and SECTR 2019.

#### Tools

[Gaia Pro 2021](#) - Gaia 2 is an introductory version of Gaia Pro. Gaia 2 expands on the original Gaia 1 with multi terrain and biome support.

[GeNa Pro](#) - GeNa Pro is the big brother of GeNa 2. It is a complete re-write, and includes all of the capability of GeNa 2 plus the ability to create splines, rivers, roads and villages and to shape and fill your terrain with rocks, trees grasses and more.

[SECTR Complete 2019](#) - A suite of performance-enhancing tools that enable open world streaming, massive mobile games and includes the latest techniques in audio occlusion and propagation.

[Ambient Sounds](#) - A tool that creates interactive soundscapes that also comes with professionally composed sound effects and music library.

[Pegasus](#) - A system that can drive anything along a path. Great for cut-scenes, and even has an ambient ai that supports formations, animation and local avoidance for your NPCs and animals!

## Stamp Packs

As the inventor of the stamp concept, and obsessive landscape creators, we know a thing or two about stamps. Check out our [Stamp Packs](#) for a range of landscapes that work with Unity, our tools, and any other tool that supports the stamp concept.

## Game Ready Levels

If you have our tools and would like some optimised levels to build your game around or learn from, then check out our [Game Ready Levels](#).

## Micro Biomes

[Micro Biomes](#) are small biomes that are designed to be mixed and matched to create more interesting environments with Gaia Pro 2021 and GeNa Pro.

## Procedural Spawner Packs

We take some of the best modular assets in the store and make it easy for you to use them in your scene with Gaia Pro and GeNa Pro and our [Procedural Spawner Packs](#). Bring your artistic vision to life and procedurally create in minutes what would take weeks or months by hand!

## NEW! Canopy community
